

# Cricket Mixtures

The availability of new specialist cultivars, plus recent trial information from the ECB and selected county grounds, has enabled formulations to be amended to provide stadium managers and local cricket club groundsmen mixtures that improve growth patterns, recovery and overall appearance. On-going research has shown variation in early and late growth patterns, which are important for autumn renovation and early spring growth. The Mascot range uses this research and additional information to meet the stress and wear found on cricket squares, whilst still providing a dense sward and recovery throughout the UK.

## R8 County & Club Cricket

28%	Greenway	Perennial Ryegrass
25%	Mercitwo	Perennial Ryegrass
25%	Greensky	Perennial Ryegrass
20%	Greensleaves	Chewings Fescue
2%	Egmont	Browntop Bent

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
5-35mm

Available in:  
20kg bags

A traditional mixture ideal for situations where the level of use is not excessive

- ★ Produces a dense, compact, fine leaf sward
- ★ Persistent and hard wearing
- ★ Good root growth and quick establishment
- ★ Reduced production of crowns during wicket preparation

## R10 Cricket (& Hockey) Outfield

25%	Greenway	Perennial Ryegrass
25%	Ace	Perennial Ryegrass
20%	Greenvie	Strong Creeping Red Fescue
20%	Lanai	Slender Creeping Red Fescue
10%	Belleaire	Chewings Fescue

Sowing Rate:  
35gms/m<sup>2</sup>

Mowing Height:  
Down to 12mm

Available in:  
20kg bags

Formulated to develop a compact sward ideal for small ball games such as cricket and hockey

- ★ Good disease resistance
- ★ Establishes quickly with good year round colour
- ★ Produces a close knit sward reducing broad leaf weed invasion
- ★ Hard wearing with good winter wear characteristics

## R9 Premier Cricket Renovation

35%	Greenway	Perennial Ryegrass
30%	Sauvignon	Perennial Ryegrass
20%	Greensky	Perennial Ryegrass
15%	Dylan	Perennial Ryegrass

Sowing Rate:  
25-35gms/m<sup>2</sup>

Mowing Height:  
Down to 5mm

Available in:  
20kg bags

Designed for county and first class cricket squares and tennis courts

- ★ Rapid establishment at lower temperatures
- ★ Reduction in the formation of crowns during wicket preparation
- ★ Extremely persistent during heavy wear with excellent root establishment
- ★ Produces a fine leaf and is tolerant of close mowing

## R4 Cricket Outfields

25%	Greenway	Perennial Ryegrass
25%	Ace	Perennial Ryegrass
20%	Greenknight	Smooth-stalked Meadowgrass
15%	Greensleaves	Chewings Fescue
10%	Helena/Turner	Slender Creeping Red Fescue
5%	Egmont	Browntop Bent

Sowing Rate:  
Up to 30gms/m<sup>2</sup>

Mowing Height:  
Down to 7mm

Available in:  
20kg bags

Designed to produce a balanced mixture with high resiliency to wear

- ★ Produces a dense compact sward with fine leaves
- ★ Colonises worn areas well by the use of rhizomatous grasses
- ★ Very drought- and wear-resistant
- ★ Produces a uniform appearance
