

Sportsfield Mixtures

The high level of use and reduced close season are placing groundstaff in a difficult position. Over the last few years construction techniques and maintenance have improved which, along with the continued development of cultivars, ensures that playing surfaces can sustain a satisfactory surface whilst under intense use.

The following Mascot mixtures offer a wide range of cultivars to ensure that all user requirements can be met.

MASCOT

ESP

R11 Football & Rugby

40%	Applause	Perennial Ryegrass
30%	Greenfair	Perennial Ryegrass
30%	Greenway	Perennial Ryegrass

Sowing Rate:
35gms/m²

Mowing Height:
Down to 25mm

Available in:
20kg bags

A traditional mixture for football and rugby pitch renovation

- * Extremely high wear tolerance under both low and high nutrient programmes
- * Rapid germination and establishment
- * Gives high shoot density and good wind shield tolerance
- * Cost effective – produces less weight/vol clippings

MASCOT

ESP

R14 Premier Winter Games Renovation

20%	Poseidon	Perennial Ryegrass
20%	Greenview	Perennial Ryegrass
20%	Action/Colombine	Perennial Ryegrass
20%	Greenfair	Perennial Ryegrass
20%	Hugo/Greenway	Perennial Ryegrass

Sowing Rate:
35gms/m²

Mowing Height:
Down to 25mm

Available in:
20kg bags

Top quality cultivars for use in high quality situations

- * Exceptional wear tolerance, density and colour appearance
- * Excellent disease tolerance, and especially resistant to Leaf Spot
- * Rapid early summer establishment with good root development

MASCOT

ESP

R12 General Playing Fields

50%	Mercitwo/Applause	Perennial Ryegrass
25%	Greenway	Perennial Ryegrass
15%	Helena	Slender Creeping Red Fescue
10%	Greenvie	Strong Creeping Red Fescue

Sowing Rate:
35gms/m²

Mowing Height:
Down to 25mm

Available in:
20kg bags

A hardwearing mixture containing high quality cultivars ideal for well-used winter games areas

- * Excellent shoot density and good drought tolerance
- * Rapid establishment and recovery from wear
- * Ideal for sowing onto new sports fields

MASCOT

ESP

R311 Rhizomatous Renovation Mixture

40%	Grande/Grande II	Rhizomatous Tall Fescue
25%	Scorpiones	Tall Fescue
20%	Berlioz	Perennial Ryegrass
15%	Tetragreen	Perennial Ryegrass

Sowing Rate:
30gms/m²

Mowing Height:
Down to 20mm

Available in:
20kg bags

An ideal mixture for a wide range of sports situations

- * Exceptional drought tolerance and deep rooting
- * Improved wear and recovery with increased rhizomes
- * Provides stabilisation of worn areas such as goal mouths

MASCOT

ESP

R13 Economy Mixture

50%	Neruda	Perennial Ryegrass
25%	Helena	Slender Creeping Red Fescue
25%	Mystic	Strong Creeping Red Fescue

Sowing Rate:
35gms/m²

Mowing Height:
Down to 30mm

Available in:
20kg bags

A hardwearing inexpensive mixture. Ideal for general areas requiring quick establishment

- * High summer wear and drought tolerance
- * Increased competition against broadleaf weeds
- * Uniform dense sward with good year round colour

MASCOT

ESP

R314 Mayday

40%	Sabrena	Rough Stalked Meadow Grass
30%	Axcella	Annual Ryegrass
15%	Greenfair	Perennial Ryegrass
15%	Tetragreen	Perennial Ryegrass

Sowing Rate:
25gms/m²

Mowing Height:
Down to 20mm

Available in:
20kg bags

A mixture specially designed for winter overseeding

- * Ideal for overseeding to give vegetative cover and increased winter growth
- * Increases sward density in low light and damp areas within stadia
- * Generates growth at very low temperatures (3°)
