

IMPACT SYSTEM ATTACHMENTS

Athletics Boom

Specially developed for use with the **iGO Advance** or **Glider** spray marking machines. Can be used on grass or hard surfaces.

Features

- ❖ Mark three lines (two track lanes) in one pass
- ❖ Paint applied with either flat fan or cone nozzles
- ❖ Adjustable width marker discs
- ❖ Sturdy yet lightweight frame
- ❖ Pneumatic tyres for effortless and smooth movement
- ❖ Easy to attach and remove
- ❖ For use with **Impact** ready to use hard surface paint or **Duraline** dilutable concentrates

Spray Boom

Converts **iGO** line marker to a walk behind pedestrian herbicide sprayer. One machine, two functions! Ideal for small sports clubs with one or two pitches, tennis clubs, cricket clubs and golf courses.

Features

- ❖ Three nozzle, 1.7 metre boom width
- ❖ Heavy duty pump applies consistent spray
- ❖ Calibrate in accordance with NPTC for herbicide spraying
- ❖ Adjustable boom height
- ❖ Robust yet lightweight frame
- ❖ Easy to attach and remove

Spray Lance

Simply connect the spray lance to the **iGO** to mark out using line marking paint, penalty spots and on golf courses, ground under repair (GUR). Also for use with pesticide for spot treating weeds, localised disease infection or Dry Patch.

Features

- ❖ Easily connects to **iGO** spray machine
- ❖ 2.5m length transparent hose
- ❖ Trigger action with locking feature
- ❖ Integral spray nozzle filter
- ❖ Robust yet lightweight frame
