3 Way Rye

Hard wearing 100% perennial ryegrass blend with Tetraploid Technology

3 Way Rye is hard-wearing, balanced 100% amenity perennial ryegrass blend. The inclusion of tetraploid perennial ryegrass means it grows and recovers in colder conditions as well as having improved tolerance to heat, drought and disease. With improved stabilisation through its deep, dense rooting, this robust blend also has high tolerance to Red Thread and deep green winter colour, making it an extremely cost-effective solution without compromise for low maintenance pitches.
