

CHEMICALS

Clearcast Green

Combined formulation of nutrients and surfactants that **reduce worm castings on turf** surfaces by deterring their movements through treated soil

WHY CLEARCAST GREEN

- › Beneficial non-casting worms are largely unaffected
- › Rain or irrigation following application will not reduce effectiveness
- › Safe to a wide range of turfgrass species

How ClearCast Green works

Scientific evaluation has shown that ClearCast Green does not kill worms or reduce populations, but does deter them from travelling through the treated soil. Its unique surfactant system holds the ingredients, antagonistic to the worms, in the upper soil structure and fixes them there providing good persistence of deterrent effect until breaking down to products naturally absorbed by plants.

ClearCast Green can be used with absolute safety from first tiller formed on new sown turfs at low rates. It can be applied year-round on established turf. Best results and longer persistency are obtained in cool soil conditions.

Product Detail

Contains: Nutrient complex and surfactants
 Pack size: 10 litres
 Pack coverage: 5,500m²
 RT order code: 0632107

APPLICATION RATES

Equipment	ClearCast Green	Water Volume	Area
Power sprayer	20 litres	250 litres (min)	1ha

- ◆ Initial application at 20 litres/ha, followed 21 days later a further application at 10 litres/ha
- ◆ If further applications required, apply at 10 litres/ha at 10-20 day intervals
- ◆ Apply as coarse spray quality
- ◆ Do not mix with water conditioners or products that acidify spray water

RECOMMENDED PERIOD OF USE

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
