

Eland

A **broad spectrum fungicide** for the control of Fusarium Patch, Red Thread, Dollar Spot and other key diseases in managed amenity turf

How Eland works

The translaminar properties of this exciting molecule allow Eland to move around the leaf and control disease both on its upper and on its lower surface. This unique activity protects both sides of the leaf within minutes of application.

The spray deposit serves as a constant fungicide reservoir, releasing active ingredient to provide long-term protection. Eland is especially suited to being applied as a preventative treatment, especially at times when turf disease pressure is high. It can also restrain mycelial growth and thereby provide additional curative activity.

Improved sward appearance. Treatments of Eland stimulate an increase in the plants capacity to convert nitrite to nitrate which improves the plants use of Nitrogen, resulting in the turf exhibiting an enhanced green colour. A further effect is a decrease in the release of ethylene, which leads to higher stress tolerance for the plant and is a major benefit during periods of drought.

Eland offers dual-sided leaf protection

WHY ELAND

- › Latest generation strobilurin fungicide – can be used all year round
- › Increased persistence, wide spectrum of activity
- › Activity with long term efficacy
- › Rainfast 1 hour after application
- › Enhances appearance of the sward
- › Excellent turf safety

Product Detail

Contains: 200g/kg (20% w/w) pyraclostrobin
 MAPP No: 19468
 Pack size: 250g bottle
 Pack coverage: 2,000m²
 RT order code: 0632370/250

APPLICATION RATES

Equipment	Eland	Water Volume	Area
Vehicle Mounted	1.25kg	200 litres	1ha
Knapsack Sprayer	62.5g	25 litres	500m ²

RECOMMENDED PERIOD OF USE

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

Use plant protection products safely. Always read the label and product information before use.

Broad spectrum disease control

Controls all major turf diseases ...with high level activity against:

Anthracnose	Melting Out
Brown Patch	Pythium Blight (Damping Off)
Fairy Ring	Red Thread
Fusarium Patch	Rust
Snow Mould	Take-all Patch
Leaf Spot	Dollar Spot suppression
