

Environmental Information Sheet

ENCLEAN®

Authorisation number: BPR UK-2020-1248

An emulsifiable concentrate formulation (EC) containing 500 g/L (51.92% w/w) nonanoic acid. ENCLEAN belongs to the PT02 group of biocides – Disinfectants and algacides not intended for direct application to humans or animals. ENCLEAN is a biocide with curative, algacide effects on outdoor buildings and building materials, on all hard surfaces (porous and non-porous) in green spaces, and on every roof type (except thatched roof).
FOR PROFESSIONAL USE ONLY.
 Maximum individual dose: 1.8 mL (undiluted product) /m², equivalent to 18 L/ha
 Maximum number of applications per year: 2
 Latest time of application: Not specified

Section	Profile
1. WILDLIFE Mammals and birds	ENCLEAN is not classified as harmful to mammals or birds. No risk management is required for wild birds or animals.
2. BEES	ENCLEAN when used as directed in accordance with the label instructions will have a low risk to honeybees.
3. NON-TARGET INSECTS AND OTHER ARTHROPODS	ENCLEAN when used as directed in accordance with the label instructions will have a low risk to non-target insects and other arthropods. A spray shield and low spray pressure (3 bar or less) should be used for application to minimise any off-target movement.
4. AQUATIC LIFE	ENCLEAN when used as directed in accordance with the label instructions will have a low risk to aquatic life. A spray shield and low spray pressure (3 bar or less) should be used for application of ENCLEAN to minimise any off-target movement.
5. SOIL AND GROUNDWATER	ENCLEAN is approved for use on outdoor buildings and building materials, on all hard surfaces (porous and non-porous) in green spaces and on all roof types (except thatched roofs). When applied in accordance with the label instructions using a spray shield and low spray pressure (3 bar or less), no risk management is required for soil or groundwater.
Earthworms	No risk management is required for earthworms when ENCLEAN is applied in accordance with the label instructions.
Soil micro-organisms	No risk management is necessary for the protection of soil micro-organisms when ENCLEAN is used in accordance with the label instructions.
6. NON-TARGET PLANTS	During application of ENCLEAN, non-target plants adjacent to the treated area should be protected. ENCLEAN should be applied using a spray shield and low spray pressure (3 bar or less) to minimise any off-target movement.

USE BIOCIDES SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE. FOR FURTHER PRODUCT INFORMATION REFER TO THE BELCHIM (UK) WEBSITE (WWW.BELCHIM.CO.UK)
