

SPRING & AUTUMN SOWING

Discovery Boxes

- ✿ The essential Euroflor range in one box
- ✿ A selection of annual and perennial mixes to choose from
- ✿ Mixes available for spring and/or autumn sowing

Euroflor Discovery Boxes - Discover Your Favourite!

Euroflor Discovery Boxes have proved a great success, providing users the opportunity to compare a wide range of mixtures across a smaller site with minimal outlay.

Sow spring sown mixes April through June for flowering that same year, or autumn sown mixes from August through October for flowers the following year.

Now you have the opportunity of making up your own **Discovery Box** from any of the mixes listed below. The mixes are in 50 gram sachets and you get 10 sachets to a box. Choose mixes that are sown in spring for summer flowering or in the autumn for flowering the following year. OR, select a combination of both! The choice is yours and there is no limit to the number of boxes you order.

Spring sowing mixes
