

## **NEW!** Armaline – Ride-On Line Marking System

### **SAVE TIME with ARMALINE**

THE operational cost-saving solution for multiple pitch marking

Specially developed for use with the IMPACT line marking paint system, Armaline is THE operational cost-saving solution for multiple pitch markings and available for use on a wide range of utility vehicles.

The Armaline Ride-On delivers fast, efficient and accurate line marking to multiple pitches, optimising the benefits of bright white, long lasting impact paint.

## The Armaline Features

- \* Fast-fix, clamp fitting – Universal fitting to a taskforce of utility vehicle
- \* Flexible fitting as a temporary attachment or permanently fixed if required

- \* Locking, retractable arm for ease of operation and transportation
- \* 3 and 4 inch interchangeable line width options
- \* 12V Diaphragm pump for consistent paint output
- \* Easily removed 20 amp battery for charging on or off the vehicle
- \* Ergonomic “Ski” design for sliding over rough terrain
- \* Solenoid spray head valve ensures instant cut off of paint
- \* Simple two way valve wash option for cleaning nozzles between sites

## The Armaline Benefits

- \* Efficient and effective over-marking of multiple pitches
- \* Marks out a standard sized football pitch in under 10 minutes
- \* Impact paint ensures no downtime wasted measuring and mixing
- \* Marks up to 10 pitches with just a single 10 litre drum of Impact paint
- \* Time saved as there is no wasted time returning to a base for re-filling
- \* No heavy water tank that can cause compaction of winter pitch surfaces

Manchester City Council (MCC) decided to compare its current Ride-On machine and paint use with the Armaline and Impact paint system. Using an experienced operator, the MCC trial concluded that significant savings, combined with superior line quality, could be achieved by switching its pitch line marking operation to the Armaline/Impact paint partnership. Manchester City Council has since purchased an Armaline and has found the system to be very versatile, using it with Impact paint to also mark out other sports pitches, running tracks and athletic field markings.
