

CHEMICALS

Heritage Maxx NEW

A **systemic Strobilurin Fungicide** for the control of a wide range of turf diseases

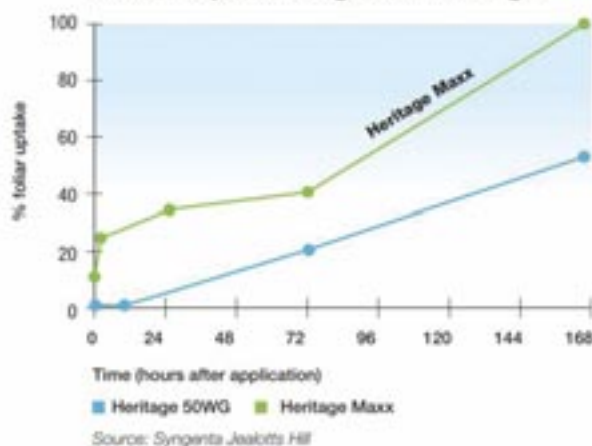

WHY HERITAGE MAXX

- › Broad spectrum systemic activity
- › Outstanding turf safety
- › Active recycling
- › Foliar and soil diseases
- › Systemic activity taken up by foliage and roots
- › Control of fairy rings – with Rigby Taylor wetting agent
- › Tank mixable with Trimate or Option and Magnet Velocite to broaden spectrum

Quicker Uptake

The Maxx formulation developed by Syngenta safely bonds the active onto the leaf surface – quickly making **Heritage Maxx** safe from wash-off by rain or irrigation. The reservoir of active on the leaf surface is then taken up by the plant and quickly gets to work to tackle disease. In trials, 30% of the active from the liquid **Heritage Maxx** formulation had already been absorbed into the plant the day after application, compared to less than 5% with the granular formulation. After 72 hours over 40% of the **Heritage Maxx** was in the plant and working, compared to less than 20% with the granular formulation. For the maximum possible efficacy 100% of the active applied on the leaf was taken up to by the plant a week after application with the liquid **Heritage Maxx** formulation, compared to 60% with the granular formulation.

Uptake of Heritage Maxx is faster and more complete than granular Heritage

Product Detail

Contains: 95 g/l Azoxystrobin
MAPP No. 18246
Pack size: 3 litre
Pack coverage: 12,000m²
RT order code: 0633122/03

APPLICATION RATES			
Equipment	Heritage Maxx	Water Volume	Area
Vehicle mounted Hydraulic sprayer	2.5 litres	125-1,000 litres	1ha
Knapsack Sprayer	2.5ml	8-10 litres	100m ²

RECOMMENDED PERIOD OF USE

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
