Line Marking Paints

Impact

Award Winning Ready-to-use Paints
Cost-saving, Convenience, Conservation

Introduced more than two decades ago, Impact Ready to Use paint system began a revolution in line marking paint and spray machinery technology.

The multi award winning Impact paint system delivers unbeatable bright, crisp lines combined with significant cost saving benefits. **Only Impact** paint system is capable of marking up to **nine** standard sized football pitches from a **single 10 litre drum**. No added water required, just shake the drum thoroughly before use.

Water and transport cost saving systems are increasingly in demand as care for the environment and fuel efficiency become higher priorities. Specially engineered cone nozzles developed specifically for the Impact system enable a full sized football pitch to be over-marked typically with just 1.1 to 1.5 litres of product, depending on nozzle selection.

Using as little as 1.1 litres of Impact paint to over-mark a standard sized football pitch means significantly reduced travel frequency for multi-site marking, thus minimizing harmful CO₂ and particulate diesel emissions. 5 litre Eco-Bags, introduced for ease of storage and disposal are available with Impact XP, meaning 3 x 5 litre bags loaded onto an iGO system spray machine can mark up to 18 pitches without re-loading.

All these benefits confirm Impact System as a massive leap forward for the line-marking industry in terms of practicality, efficiency, associated costs and environmental stewardship, as well as delivering reliable quality lines. Used by professionals and volunteers alike, the range of products provides the affordability and flexibility to suit all budgets and standard of lines.

WHY IMPACT PAINTS

- › **Ready-to-use**
No measuring, no mixing, no mess
- › **Time saving**
Quick start, fewer re-fills, faster finish
- › **Cost savings per pitch**
Less paint, no added water...it all adds up
- › **Great visuals**
Crisp lines, bright white or vibrant colours
- › **Fast drying**
Rainfast in as little as 20 minutes
- › **Long lasting**
Highly rain resistant once dry, no 'ghosting'
- › **Flowability**
High atomisation through unique nozzles
- › **Flexibility**
All surfaces...natural grass, hard and synthetic surfaces*
- › **Lighter load**
No heavy tank of dilutable to cause compaction

*Temporary lines only on synthetic surfaces, great for multi-use synthetic pitches. For more permanent, longer lasting markings, Duraline Synthetic paint is highly recommended

Carrying 3 x 5 litre Eco-Bags, 13 pitches could be over-marked. Or, using 2 x 10 litre drums, up to 18 pitches can be over-marked, without returning to base!

Impact The Range

Impact Match

Pack size: 10 litre drum
 Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › Super fast drying
- › No transference
- › Incredible white lines
- › From just 1.5 litres per football pitch, 2.5 litres for rugby union

RT Order Code: 0841981/010

Impact Lite

Pack size: 10 litre drum
 Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › For frequent/weekly marking only
- › Excellent value for regular multiple pitch marking

RT Order Code: 0841705/010

Impact HD

Pack size: 10 litre drum
 Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › Next generation Impact paint
- › Unbeatable, ultra-bright lines
- › Extra long lasting

RT Order Code: 0841703/010

Impact Green-Out

Pack size: 10 litre drum
 Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › Masks out white lines
- › Green pigment blends with grass
- › Spray using green cone nozzle

RT Order Code: 0841968/010

Impact XP

Pack size: 2 x 5 litre Eco-bag, 5 & 10 litre drums

Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › Staying power, lasts much longer
- › As little as 1.1litre per pitch
- › Bright white and superior adhesion

RT Order Code: 0842011/010

Impact Hard Surface

Pack size: 5 litre drum 
 Area of use: Tarmac, concrete
 Application: RTU with iGO, iGO mini or Glider

- › Special binders and stickers
- › Acrylic based formulation
- › Range of non-grassed surfaces

RT Order Code: 0841911/05

Impact Standard

Pack size: 5 & 10 litre drums 
 Area of use: Natural grass
 Application: RTU with iGO, iGO mini, Glider or GPS

- › Excellent spray-ability
- › Highly stable and consistent spray
- › Bright white or vibrant colours

RT Order Code: 0841901/010

 Colour options are available for paints showing this symbol

Impact Cone Nozzle Technology

It took considerable research to achieve Impact Cone Nozzle Technology. Only the combination of Impact cone nozzles with Impact paints consistently deliver as little as 1.1 litres–of paint per pitch. That's because Impact paints are formulated with superior flowability to assist the right droplet atomisation through these unique, specially engineered nozzles. Excellent leaf coverage and consistent line width can be easily achieved, time after time. Use Flush Thru to keep nozzles and pipes clean and free flowing for optimum delivery and unbeatable lines.

Line Marking Paints

DURALINE

A range of ready-to-use and traditional dilutable concentrate paints

DURALINE
Ready-to-use Paints

Advantage

- ▶ Super-fast drying, long lasting
- ▶ No transference or ghosting
- ▶ Incredibly bright white and durable

Pack size:	10 litre
Area of use:	Grass
Application:	Apply by transfer wheel (can be diluted up to 10%)
Dilution:	Not required
RT Order No:	0841954/010

Stadium

- ▶ Very fast drying
- ▶ Doesn't re-wet
- ▶ No transference

Pack size:	10 litre
Area of use:	Grass
Application:	Apply by transfer wheel (can be diluted up to 10%)
Dilution:	Not required
RT Order No:	0841435/010

Complete

- ▶ High viscosity paint
- ▶ Bright white lines
- ▶ No mixing, no mess

Pack size:	10 litre
Area of use:	Grass
Application:	Apply undiluted by transfer wheel machine
Dilution:	Not required
RT Order No:	0841229/010

Hard Surface

- ▶ Acrylic formulation
- ▶ Durable and long lasting
- ▶ Colour options available

Pack size:	10 litre
Area of use:	Tarmac, concrete and all-weather hard court
Application:	By spray or brush/roller
Dilution:	Not required
RT Order No:	0841911/05

Synthetic Grass

- ▶ Acrylic based
- ▶ Anti-scuff formulation
- ▶ Radiant colour options

Pack size:	10 litre
Area of use:	Synthetic Grass
Application:	Apply by spray
Dilution:	Not required
RT Order No:	0841909/010

Wipe-Out S

- ▶ For outdoor synthetic surfaces
- ▶ Great surface adhesion
- ▶ Use yellow flat fan nozzle

Pack size:	10 litre
Area of use:	Outdoor Synthetic Grass
Application:	Apply by spray
Dilution:	Not required
RT Order No:	0841956/010

Dazzle

- ▶ Very high dilution rates
- ▶ Ultra-bright & long lasting
- ▶ High quality pigments/binders

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Initial Marking: 5:1 ratio Overmarking: 15:1 ratio
RT Order No:	0841230/010

Supreme

- ▶ Outstanding whiteness
- ▶ Long-lasting white lines
- ▶ Can be diluted 50/50

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Initial Marking: 5:1 ratio Overmarking: 12:1 ratio
RT Order No:	0841430/010

Superline Xtra

- Easy mixing hyper-dispersant
- Very high pigment
- Longer lasting, durable lines

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Initial Marking: 3:1 ratio Overmarking: 10:1 ratio
RT Order No:	0841426/010

Concentrate

- High pigment
- Excellent water resistance
- Colour options available

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Initial Marking: 3:1 ratio Overmarking: 7:1 ratio
RT Order No:	0841410/010

Standard

- Anti-clogging additive
- For initial and over-marking
- Crisp, bright lines

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Initial Marking: 2:1 ratio Overmarking: 4:1 ratio
RT Order No:	0841401/010

Wipe-Out G

- Easily removed line marking paint
- White or in a range of colours

Pack size:	10 litre
Area of use:	Grass
Application:	Spray, transfer wheel, brush or roller
Dilution water to paint:	Up to 1:1, or max. 10% for transfer wheel
RT Order No:	0841956/010

Green-Out

- Covers white lines and stencilled areas
- Provides natural grass colour

Pack size:	10 litre
Area of use:	Grass
Application:	Spray or transfer wheel marking machine
Dilution water to paint:	Up to 5:1
RT Order No:	0841955/010

DURALINE Dissolving Solution

Removes Wipe-Out S from playing surface

- Fast and effective
- No special equipment
- No damage to playing surface

Pack size:	10 litre
Area of use:	Synthetic surface only
Application:	By spray
Dilution rate:	2:1
RT Order No:	0841969/010

DURALINE Cleaner

Flush-Thru

- For all marking machines
- Keep nozzles and pipes clear
- Keep roller wheels rolling

Pack size:	10 litre
RT Order No:	0841800/010

DURALINE Aerosol Paints

Aerosols

- Environmentally friendly, xylene and CFC-free aerosols
- Applies highly pigmented, undiluted paint
- Minimum overspray/waste
- Convenient hardwearing and easy to use
- Dependable aerosol can action

Pack size:	750ml
Application:	Hand-held aerosol or through dedicated aerosol line marking machines
Area of use:	Range of surfaces including grass
RT Order No:	0920401/ (white)

Golf Cup Marker

- Unique design
- Applies aerosol paint around the perimeter of the holes
- Simple and effective

RT Order No: 22-N2310

Colour options are available for paints showing this symbol

Paint Colourants

A range of concentrated colours are available in 1 litre packs

White Powders

Low cost, high-white, free flowing, easily applied powders. Ideal to use during the wet winter months. Just 44kgs to mark a full size football pitch with an 8cm wide line.

Pack size:	25kg
Application:	Transfer wheel marking machines
Area of use:	Grass

Snowcal 10 Snowcal 20/WD

- Snowcal 10 is for a dry line
RT Order No: 0843101/025
- Snowcal 20/WD for a wet or dry line
RT Order No: 0843102/025

Snowcal 40/80

- Can be applied wet or dry
- High-white base material provides sharp, bright lines

RT Order No (40): 0843104/25
RT Order No (80): 0843108/25

Line Marking Machines

A complete range of technically advanced spray markers plus transfer wheel and aerosol markers are available for both sports and golf

iGO Advance

The perfect partner for Impact system ready-to-use paints

High pressure, pump delivery system

Finger tip on/off solenoid valve and ski for precision

Handle located, disc lift mechanism for ease of operation

Pre-drilled spacer holes for easy and quick line width changes

Pneumatic tyres and non-corrosion chassis

Long-life removable battery, LED charge indicator and battery life indicator

Carries 2 x 10 litre drums or 3 x 5 litre eco bags

Optional 18 litre paint pod for applying dilutable concentrates

RT Order No: 1280901/

Glider

Robust marker for Impact ready-to-use paints

Available with paint pod for Impact ready to use paints or paint tank for dilutable concentrates

Perfectly balanced for ease of movement over a range of surfaces

Adjustable handles to suit operator preferences

Powerful, high-pressure pump for consistent paint flow

Long-life removable battery, LED and battery life charge indicators

Pneumatic tyres and galvanised chassis

RT Order No: 1280905/

iGO Mini

Compact marker for both 5 & 10 litre drums. Perfect for stadiums or grounds with one or two pitches

Discs can be either front- or side-mounted

Lightweight and effortless to operate

Compact and easily folded for transport/storage

Finger tip on/off, no drip solenoid valve controls

Long-life, removable battery

Pneumatic tyres and non-corrosion chassis

RT Order No: 1280965/

The Circulatory Paint System in the iGO Premier, iGO Prime and iGO Midi

- Continuously re-circulates paint for consistent spraying This innovative system continuously re-circulates paint during operation, improving flow to help sustain a consistent spray, particularly useful in cold conditions.
- Easier machine cleaning after use Immediately after marking, both probes are placed in clean water and the re-circulate function is activated for a few minutes to clean the internal system. An added advantage is a probe can then be used to wash down the machine externally.

iGO Premier **NEW**

The perfect partner for Impact Match paint

Produces pitch-perfect lines

Circulatory paint system for constant flow

Perfectly balanced for utmost accuracy

Pre-drilled disc spacers

Finger-tip control of disc lifting/locking mechanism

LED battery life/charging indicator

Six hours of constant spraying from powerful 20 amp power unit

Clear forward line of sight

Optional Solenoid – solenoid valve provides instant paint cut-off

RT Order No: 1280927/

iGO Prime

New twin probe, circulating system for internal paint distribution

Six hours constant spraying time from powerful 20 amp power unit

Pre-drilled disc spacers for quick and easy line width changes

Finger-tip control of lifting and locking disc mechanism

LED battery life/charging indicator

Solenoid valve provides instant paint cut-off eliminating leakage on turf

Pneumatic tyres for excellent surface stability and maneuverability

Easily accessible, heavy duty pump for consistent paint output

RT Order No: 1280930/

iGO Midi

New twin probe, circulating system for internal paint distribution

Six hours constant spraying time from powerful 20 amp power unit

Pre-drilled disc spacers for quick and easy line width changes

Fully adjustable handle-bar height to suit operator preferences

Pneumatic tyres for excellent surface stability and maneuverability

Robust, high-gloss warm touch powder coated framework

Compact, easily portable and highly manoeuvrable

RT Order No: 1280925/

*Rigby Taylor offer a range of Aerosol markers. Please refer to Line Marking Brochure

Transfer Wheel Markers

A choice ranging from heavy duty, Premiership use quality to budget, grass roots options.

Dimple

- ▶ Interchangeable 5 and 8cm marking wheels
- ▶ Available also as a 10cm model
- ▶ Choice of standard rubber Pneumatic-tyre wheels
- ▶ Tank capacity of 16 litres
- ▶ Marks out approx. 2 football pitches with one filling

Linesman

- ▶ Ideal for use on smaller grounds and tennis courts
- ▶ Interchangeable 5 and 8cm marking wheels
- ▶ Choice of tank capacity 9 and 14 litres
- ▶ Available with a 10 cm marking wheel on the 3 gallon model.
- ▶ Optional pneumatic-tyres

Prince

- ▶ Light and inexpensive with "Rollamark" interleaved transfer wheel for improved performance
- ▶ Tank capacity of 18 litres
- ▶ Interchangeable 5 or 8cm marking wheel – 10cm also available
- ▶ Both models have the option of pneumatic-tyre wheels

Rollaline

- ▶ Sturdy, rustproof tank
- ▶ 18 litre paint capacity
- ▶ Drain plug
- ▶ Pneumatic tyres
- ▶ Easy to clean and simple maintenance
- ▶ Perfect for use with Preline initial marking paint

Leading the field in

TinyLineMarker (TLM) Pro is joined by the TinyLineMarker (TLM) Sport expanding the most advanced autonomous robotic technologies for precision marking

Small in size, big on performance

- ▶ Simple to operate - marking is quick and easy for pitches with fixed sockets or moveable goals
- ▶ Advanced GPS/RTK delivers accuracy for initial and overmarking
- ▶ No requirement for a separate base station
- ▶ Average 20 minutes to initial and overmark a standard sized football pitch
- ▶ Average 90 minutes to initial and overmark a 400 metre running track
- ▶ Mark up to 6 standard sized football pitches with 1 x 10 litre drum of Impact paint
- ▶ Supplied tablet with access to over 50 sports templates plus logos, letters, numbers & parking grids
- ▶ Never lose your lines
- ▶ Rugged and durable - easily portable
- ▶ Re-chargeable Lithium ion battery for low energy consumption

TinyLineMarker **Pro**

Specially developed robotic line marker for the multiple pitch marking use, contractors, service providers and extensive multi-sports facilities.

RT Order Code: 1880631/

TinyLineMarker **Sport**

The smart choice for sports clubs with a smaller number of pitches, schools, training and academy grounds, and district and borough councils

RT Order Code: 1880700/

robotic line marking

Built for safety & security

The TLM's have front and side bumper strips and integral ultrasonic, intelligent sensors to protect from damage and detect *any* obstacle in its path. It slows down and if the object does not move, will gently bump against it, stop and immediately notify the operator via the tablet.

Quality & reliability

The TLM Sport weighs just 25 kilos (without paint drum and battery), the TLM Pro 35kg, but with their robust design, electric brushless motor, reliable ball bearings and bumper protection it has a long service life and requires little maintenance.

Eco-friendly

CO₂ emissions and water conservation continue to attract an increasing level of interest. The TLM's are battery powered, have low energy consumption and zero emissions and together with the use of Impact ready-to-use paint means they are the eco-smart choice.

Perfect partners

The combination of TLM and Impact delivers a fast and accurate spray application with bright white, long lasting lines. The award winning paint is used straight from its container; no measuring, no mixing, no waste. There is also virtually no contact of the paint with the operator.

Intelligent by design

Using the latest robotic technology and GPS/RTK connectivity, the TLM Sport and TLM Pro are completely autonomous. With intelligent technologies they deliver highly accurate, initial and over-marking for a wide range of sports, plus letters, numbers, parking and event grids. Never lose your lines, simply save them on your tablet.

The power to paint

Select the relevant sport template App on the Samsung tablet, position the machine on the pitch and the robot does the rest. For example, the football template App marks perimeter lines, corner arcs, centre circle, D, goalmouth boxes and even the penalty spot!

The cost-efficient solution

The operator can carry out additional tasks such as aeration, mowing, spraying, spreading etc. simultaneously whilst the TLM robots do the marking, so making the most of valuable resources particularly when seasonal workload is at its peak.

Robotic line marking for more than 50 sports

Available template groups

- Football Group (11v11, 9v9, 7v7, 5v5, training grids)
- Rugby Group (Union & League)
- Athletics Group (Running tracks 200, 300 & 400m, Discus, Hammer, Javelin)
- American Football Group (Professional, College, High School)
- Gaelic Sports Group (Football, Hurling, Shinty)
- Baseball Group
- Lacrosse Group (Men, Women, Unified High School)
- Cricket
- Tennis
- Netball
- Field Hockey
- Rounders
- Fistball
- Frisbee
- Quidditch
- Stool Ball
- Geometry (lines & circles)
- Letter & Number Stencils
- Parking, Exhibitions & Events

Nozzle Flow Rates

All calculations are based on 10 minutes spraying time which represents the average actual spraying time for a standard football pitch*.

The concentrate figures show the expected results using the recommended dilution rates for over-marking.

LINE MARKING NOZZLE SELECTOR

*Per Pitch refers to marking a standard size grass football pitch of 650 linear metres (711 yards) at an average walking speed of 2.5 mph (65 metres per minute). Dilution rates are the maximum recommended water to paint ratio by product

Hartpury University and College Campus

Rigby Taylor's fully autonomous, robotic TinyLineMarker (TLM) Pro has proved to be a "big time saver" for the grounds team. Following a TLM Pro onsite demonstration, Matthew Newman was so impressed, he decided to invest in the machine there and then and says it immediately proved to be a massive time saver for the team. "Our sports pitches are adjacent to each other so we can now cut and roll one pitch, put the TLM Pro on to mark, and then cut and roll the adjacent pitch while it's doing its job." Matthew says he has always uses Rigby Taylor's Impact paint with the TLM Pro. "I find we now use much less paint than we did with a standard line-marking system."

Mathew Newman
Grounds and Sports Maintenance Manager
