

# Nurture Feed, Weed & Moss Killer

Nurture Feed, Weed and Moss Killer is a granular formulation containing 21.74% w/w Iron Sulphate, 0.057% w/w Dicamba and 2.86% w/w 2,4-D and Mecoprop-P for the control of broadleaved weed species and moss on lawns.

Treats up to (625) M<sup>2</sup>

## UK Fertiliser Declaration

### Compound Fertiliser 10-2-2 with Iron

<b>Nitrogen (N) Total</b>	<b>10.0%</b>	
<b>Phosphorous Pentoxide (P2O5) Total</b>	<b>2.0%</b>	<b>(0.9%P)</b>
<b>Potassium Oxide (K2O) Total</b>	<b>2.0%</b>	<b>(1.7%K)</b>
<b>Iron (Fe) Total</b>	<b>8.0%</b>	

## INSTRUCTIONS FOR USE

Nurture Feed, Weed & Moss Killer can be used between May and August when grass, moss and weeds are actively growing and soil is moist. Do not apply during drought or freezing conditions. Nurture Feed, Weed & Moss Killer granules or dust should not be allowed to come into contact with flowers, shrubs, fruit or vegetable plants. Apply only to established turf. Do not use on new grass for six months. Grass should not be cut 3 days before treatment and not cut again until at least 4 days after treatment. Do not apply when heavy rain is forecast but if no rain falls within 48 hours then water the product into the lawn. Do not apply in windy conditions. Keep off skin and away from eyes. It is good practice to wear gloves when using this product.

### Application by Hand

Mark out areas to be treated. Wearing gloves sprinkle evenly at 32 grams per square metre over the marked area.

### Application by Spreader

Mark out areas to be treated. Apply evenly at 32 grams per square metre over the marked area with suitably calibrated granular applicator.

### Further information

The moss will blacken as it dies. Any discolouration of the turf is temporary. Avoid walking on treated areas until it has rained or product has been watered in. If spilt on paving, concrete etc, brush off immediately to avoid discolouration. The first four mowing's should not be used to mulch cultivated plants unless composted for at least 6 months.

Dead moss can be removed by raking or scarify 7-14 days after treatment. Re-treatment may be necessary for heavy moss infestation, or if moss returns. Do not apply more than 2 times in any one season. Allow 40 days between applications. Do not re-seed or turf for at least 6 weeks after application. Nurture Lawn Feed, Weed & Moss Killer must not be mixed with other plant protection products.

### Moss Control techniques

The key to reducing moss is to have an effective all-year round management strategy incorporating the use of Nurture Lawn Feed, Weed & Moss Killer.

The following non-chemical techniques can be used to help reduce moss;

- Ensure the turf is healthy, weed, disease and pest free. This can be helped by fertilisation and regular maintenance.
- Soil aerating of the lawn to help to encourage the free passage of water & nutrients through the soil.
- Raking/scarifying to remove dead mosses and removal of fallen leaf debris to prevent the build-up of fibrous material which encourages weed and moss growth.

If these cultural management practices are followed in harmony with applications of Nurture Lawn feed, Weed & Moss Killer then the reduction of mosses can be successfully achieved.

## Warning

Causes Serious Eye Irritation

Harmful to Aquatic life with long lasting effects.

Wash hands thoroughly after handling

Wear protective gloves / eye protection / protective clothing / face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

Collect spillage. Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of by recycling. Contact your local council for details.

Contains 2,4-D. May produce an allergic reaction.

To avoid risk to human health and the environment, comply with the instructions for use.

### Protection during/in use

WASH HANDS AND EXPOSED SKIN AFTER USE. If swallowed seek medical advice immediately and show this container or label.

### Environmental protection

DO NOT CONTAMINATE WATER with the product or its container. Do not empty into drains.

### Storage and disposal

Store in a cool, dry place.

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

KEEP PRODUCT AWAY FROM CHILDREN AND PETS.

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS
