

R25 CRT

Hard-wearing 100% perennial ryegrass blend with Tetraploid and Creeping Ryegrass Technologies

R25 CRT is an extremely hard-wearing 100% perennial ryegrass blend with the benefit of both tetraploid and creeping ryegrasses together with top performing diploids. This leading innovation provides fast establishment and great recovery capability for high impact wear and stressed turf surfaces.

Usage

- Golf tees fairways, semi-roughs, walkways
- Cricket squares and outfield, especially for dual use with winter pitches
- Tennis courts
- Construction and renovation of natural grass and hybrid sports pitches
- Construction and renovation of racecourses
- Polo pitches
- Colder temperature repairs down to 4°C
- Increase drought and disease tolerance

FACTfile: R25 CRT

Cultivars

25% Fabian: Tetraploid perennial ryegrass

Tetraploid, robust, high disease tolerance, cold temperature growth, drought

25% Creepstar: Creeping perennial ryegrass

Hard-wearing, fine-leaved creeping perennial ryegrass, fast early establishment, high tillering from the crown with fine leaf

25% Cameron: Perennial ryegrass

Extremely hard-wearing, high density with fast recovery and superb cleanness of cut

25% Angelina: Perennial ryegrass

Hard-wearing, fast recovery, fine leaf and superb cleanness of cut

Turfgrass Seed 2023	Wear	Recov.	Shoot density	Red thread	Clean cut	Visual merit
Fabian	6.4	6.6	5.4	5.9	-	6.1
Creepstar	6.5	6.4	7.3	5.3	4.6	7.2
Cameron	7.4	7.6	7.6	5.7	7.5	7.7
Angelina	7.2	7.5	7.3	5.8	7.7	7.3

Geves Turfgrass List	Sport Index (Wear)	Establishment	Persistency	Colour
Fabian	6.9	7.5	7.8	6.4
	Leaf Spot	Microdochium	Red Thread	Rust
	6.5	7.8	7.8	7.7
Lowest score for all cultivars	4.5	6.3	6.8	4.5
Mean score for all cultivars	6.4	7.2	7.3	7.0

Sowing rate	Overseeding rate	Sowing depth	Mowing height
35 – 50g/m ²	15 – 35g/m ²	12 – 15mm	Down to 7mm

Performance

- Tetraploid gives fast germination from just 4°C
- Superior winter wear with robust regrowth
- Creeping rye to aid establishment and recovery
- Stronger, deeper, denser root mass for tensile strength and drought tolerance
- Exceptional tolerance to Leaf Spot, *Microdochium* Patch, Red Thread and Rust diseases
- Excellent colour and presentation

Pack Size: 20kg
