R25CRT

Hard wearing 100% perennial ryegrass blend with Tetraploid & Creeping Ryegrass Technologies

R25CRT is an extremely hard wearing 100% perennial ryegrass blend with the benefit of both tetraploid and creeping ryegrasses together with top performing diploids. This leading innovation provides fast establishment and great recovery capability for high impact wear and stressed turf surfaces.

The Mixture

25%	Fabian	Tetraploid perennial ryegrass
25%	Creepstar	Creeping perennial ryegrass
25%	Cameron	Perennial ryegrass
25%	Gianna	Perennial ryegrass

Sowing Rate: 40-60g/m²
Overseeding Rate: 25-35g/m²
Sowing Depth: 12-15mm
Mowing Height: Down to 7mm

The Cultivars

Fabian	Tetraploid, robust, high disease tolerance, cold temperature growth, drought
Creepstar	Hard-wearing, fine-leaved creeping perennial ryegrass, fast early establishment, high tillering from the crown in combination with lateral, semi-prostrate growth habit
Cameron	Extremely hard wearing, high density and very fine-leaved with fast recovery
Gianna	High density and fine leaf, boosts tolerance to Red Thread disease

TGS 2022	Shoot Density	Fine Leaf	Red Thread	Clean Cut	Visual Merit	Wear	Recovery
Fabian	5.4	5.2	6.1	n/a	6.1	6.3	6.6
Creepstar	7.4	7.7	5.3	4.7	7.3	6.5	6.4
Cameron	7.7	7.7	5.7	7.5	7.9	7.4	7.6
Gianna	7.7	7.1	7.3	7.4	7.7	6.9	7.3
Mean score	7.1	6.9	6.1	n/a	7.3	6.8	7.0

	Sport Index (Wear)	Establishment	Persistency	Colour
Fabian	6.9	7.5	7.8	6.4
	Leaf Spot	Microdochium	Red Thread	Rust
Fabian	6.6	7.9	7.9	7.7

Gees Turfgrass List

Where to use

- Construction and renovation of natural grass and hybrid sports pitches
- Cold temperature repairs down to 4°C
- Increase drought & disease tolerance

How it performs

- Tetraploid gives fast germination from just 4°C
- Superior winter wear with robust re-growth
- Creeping rye with lateral growth to aid surface cover
- Stronger, deeper, denser root mass for tensile strength and drought tolerance
- Exceptional tolerance to Leaf Spot, Microdochium Patch, Red Thread and Rust
- Excellent colour and presentation

TT Tetraploid Technology
