Description

RT Lawn Sand Moss Control & Fertilizer is effective for control in sports turf. The product also promotes turf growth to rapidly infill the bare areas left after [moss](#) removal. Ferrous sulphate in RT Lawn Sand helps strengthen turf against diseases such as and an acidifying effect will help deter earth [worm](#) activity. This makes the product ideal for use on sports turf, such as the golf course, bowling green or cricket outfield, and in amenity turf areas.

Note: It is your responsibility to ensure that any pesticide product for Professional use is used according to the and that all operators are trained and certified in its use.

Product registered for Professional use in UK only.

ALWAYS READ THE LABEL. USE PESTICIDES SAFELY.

Pack Size

20Kg
