

TBOS-BT Bluetooth Battery-Operated Controller

Install anywhere. Program from a Smartphone.

The TBOS-BT 9V Battery Controller provides commercial-level irrigation control that you can program with your smartphone and free Rain Bird mobile app. Install the controller in street and highway medians, roundabouts, or anywhere you need irrigation control but do not have AC power.

The vandal-proof case makes it ideal for public or high foot traffic areas. With the Rain Bird app you can create flexible schedules that automatically adjust for the season and have multiple programs and start times.

Program With a Smartphone

- Use free Rain Bird mobile app and Bluetooth connection to program controller
- Set runtimes to automatically adjust by month
- Check controller battery life with Rain Bird App

Install Anywhere

- Street and highway medians, roundabouts, retrofit and construction sites, or in vandal-prone areas.
- Helps provide temporary irrigation to qualify project for LEED points

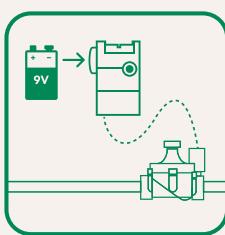

Features

- Vandal-proof, IP-68 rated waterproof case
- 3 independent programs (custom, even, odd, odd-31 and interval), and 8 start times per program per day
- Name controllers and stations for easy reference
- Check battery life with App (while connected to the controller)
- Monthly Seasonal Adjust: Program automatic adjustments to station runtimes for each month
- Create and restore backup programs
- Manually run programs and stations
- Set water budget from 0-300%
- Master Valve: Extra support for stations that require a back-up to minimize water leaks or need extra water pressure
