# Two powerful Bio-remedial liquids

## Lightweight spray application technology

### HARD SURFACES

Oil spill before treatment

Oil spill after treatment - scrubbed residue washed into interceptor

### SOFT SURFACES

Untreated 41 days after spill

Oil spill 41 days after treatment

### RT FleetKleen

Industrial strength biological cleaner, de-greaser and bioremediation product for use on all hard surfaces including pavements, patios, workshop floors, grinders, mowers and other equipment contaminated by hydrocarbons. Contains a powerful organic de-greaser, to lift the bond between the surface and hydrocarbon contaminant, and bacteria that starts the process of digesting and breaking down the hydrocarbons to carbon dioxide, water and heat.

#### What it is

RT FleetKleen contains naturally occurring single-celled micro-organisms which bio-remediate hydrocarbons it is fully sustainable and contains no solvents, is non-hazardous, non-corrosive, non-inflammatory and neutral pH.

#### How it's used

Shake concentrate, dilute between 20 and 30 to one with clean water. Apply using pressure sprayer or power washer – Use 2 litres of diluted spray solution per square metre.

### RT Remediact

A concentrated formulation of microbial bio-remediation bacteria and hydrocarbon agents for mitigating the damage caused by fuel or oil spills on turf and soil.

#### What it is

A concentrated liquid formulation of live hydrocarbon-oxydising, naturally occurring micro-organisms.

RT Remediact is non-hazardous, non-inflammatory, non-corrosive and non-caustic. The product is pH neutral, biodegradable and sustainable.

#### How it's used

Apply as a spray direct to the contaminated surface:

Shake concentrate. Add 100ml of product to 1 litre of water. Apply to 10 square metres of contaminated area using a suitable sprayer.

### EVOLUTION 5 litre Applicator

Specially labeled for easy and accurate measurement of materials

- \* 5 litre tank capacity
- \* Large aperture for easy filling and emptying
- \* Stand alone pressure and filling system
- \* Ergonomically designed handle
- \* Filter with viton joints and stainless steel spring
