

Golf Courses & Bowling Greens

GREENS: FESCUES & BENTS

Traditional Greens

Fine fescues & bents

This competitively priced, fine-leaved traditional Chewings fescue/browntop bent mix improves density and year-round colour.

The Mixture

45%	Greenmile	Chewings fescue
45%	Belleaire	Chewings fescue
10%	Egmont	Browntop bent

Sowing Rate: 20-25g/g/m²
Overseeding Rate: 10-15g/m²
Sowing Depth: 2-4mm
Mowing Height: Down to 3mm

The Cultivars

Greenmile	Good winter colour, early spring green-up, improves tolerance to <i>Microdochium</i> and Red Thread diseases
Belleaire	Good density, consistent mid-green colour summer and winter
Egmont	Excellent winter colour, improves tolerance to <i>Microdochium</i> disease

TGS 2022	Shoot Density	Red Thread	Visual Merit
Greenmile	6.5	7.2	6.6
Belleaire	6.5	4.7	6.8
Egmont	6.6	6.1	6.7
Mean score	6.5	6.0	6.7

Where to use

› Golf and bowling greens

How it performs

› Increases density

› High tolerance to close mowing

› Early spring green-up from Chewings fescues

› Improves disease tolerance

Pack Size:
20kg
